

DSEAR & ATEX CONSULTANCY

The Dangerous Substances and Explosive Atmospheres Regulations 2002 (DSEAR) requires employers to control the risks to safety from fire, explosions and substances corrosive to metals. The HSE website is very informative and can help you to understand what you need to know about DSEAR.

Addison Project can provide the expertise to enable you to adhere with DSEAR regulations using our experienced in-house team to;

- Identify substances in your workplace that have the potential to cause fire and explosion risk.
- Identify and classify areas in the workplace where explosive atmospheres may occur.
- Recommend control measures.

Addison Project will take away the pressure from you in complying to the DSEAR Regulations, we focus on identifying practical solutions to enable you to put in place the correct processes.

EFFICIENCY FROM EXPERIENCE
